SELECTED CABLE LANDING SITES IN THE DARDANELLES

This memorandum is in answer to a request to confirm the existence of and to pinpoint on aerial photography certain cable landing sites as listed below and as indicated on [REDACTED]

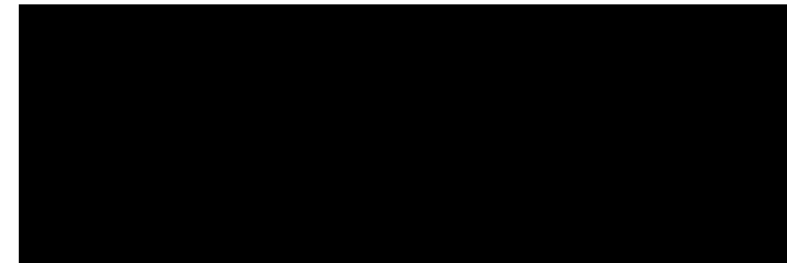

25X1C

25X1C

1. GELIBOLU (GALLIPOLI)

Plate 1

25X1D

The location of the landing site is marked on Plate 1. Although the scale of the aerial photography is too small to identify the installation itself, a cable crossing beacon at the site appears in ship to shore photography [REDACTED]

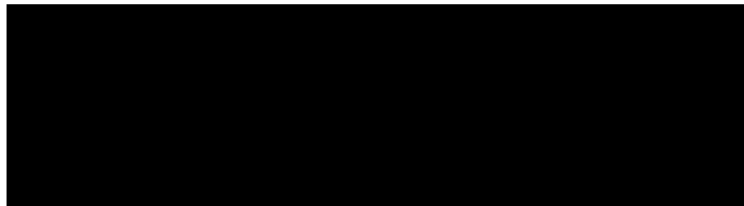

25X1D

2. CARDAK

Plate 2

Source Photography:

25X1D

The site is marked by a cable crossing beacon which appears in ship to shore photography [REDACTED] and which may be cross-identified on vertical and oblique cover [REDACTED]

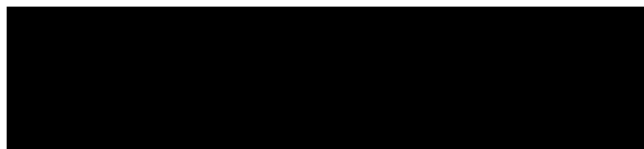

25X1D

25X1D

3. ECEABAT

Plate 3

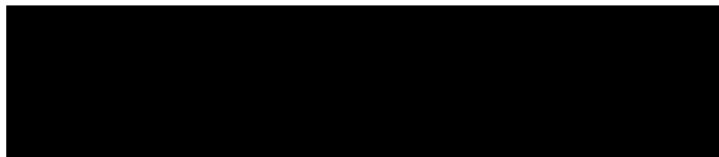

25X1D

SECRET
NO FORN

25X1D

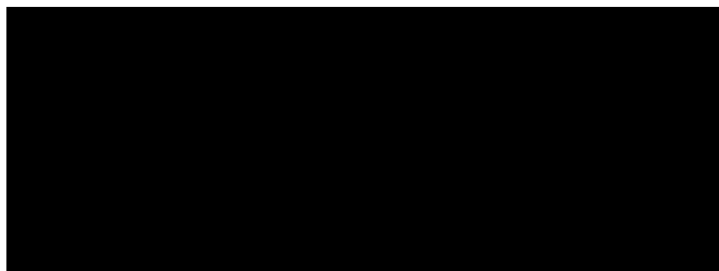

A small projection entering the water in the reported area appears in the aerial photography. Ship to shore photography [REDACTED] shows this to be a concrete encased pipe. No bottom fouling in the vicinity of the projection, indicative of waste disposal, is apparent.

25X1D

4. EAST of TEKEH

Plate 4

25X1D

25X1D

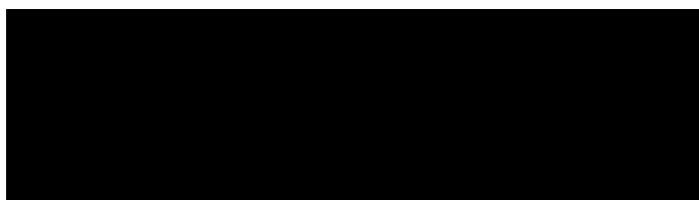

25X1D

A cable crossing beacon appears on ship to shore photography [REDACTED] and the vertical and oblique cover [REDACTED]

5. ABIDOS BURNU

Plate 5

25X1D

A cable crossing appears on the ship to shore photography [REDACTED] and stereo cover [REDACTED]

SECRET

SECRET

This memorandum reports U.S. Navy aerial photography recently received in Washington. It is based on a scanning of the prints at the Office of Naval Intelligence before the material enters clerical processing. Its purpose is to advise CIA components as soon as possible of the existence of new aerial photographic cover as a guide for requirements on specific problems. Arrangements have been made with the Office of Naval Intelligence to obtain the original prints in cases of "crash" or high priority need. It is important that this privilege not be abused. For normal requests during the period of processing of the material, a minimum of 4 weeks time for the procurement of prints should be expected. The Photo Intelligence Division, ORR (Rm. 1337, N Bldg., Extension 3805, 8441 or 8442) invites consultation on specific requirements or further information.
